EDUCATION

B.Sc. in Computer and Systems Engineering

Oct 2020 – Jul 2025

Helwan University

- **Cumulative Grade:** Very Good with Honors
- **Relevant Coursework:** Software Engineering, Object-oriented Programming, Databases, Networking, Operating Systems, Algorithms, Data Structures, Computer Architecture, AI, ML, Computer Vision

PROFESSIONAL EXPERIENCE

National Telecommunication Institute (NTI) – Full Stack Trainee

Oct 2025 – Jan 2026

- Completed intensive training in full-stack web development, covering frontend, and backend
- Gained hands-on experience in building web applications, deploying services, and applying DevOps
- Developed professional skills including teamwork, communication, and technical documentation

RELEVANT PROJECTS

The Wild Oasis - Booking • *Next.js, Supabase, NextAuth.js, Tailwind CSS* • [GitHub Repo](#) • [Live Site](#)

- Built a customer-facing cabin booking web app where users can browse cabins, manage reservations, and authenticate via Google sign-in using NextAuth.js and Supabase

The Wild Oasis • *React, Supabase, React Query, React Router, React Hook Form, Recharts, Styled Components* • [GitHub Repo](#) • [Live Site](#)

- Built a hotel management web app for managing cabins, bookings, and guest check-ins with real-time updates using Supabase and React Query

WorldWise • *React Router, Context API, Memo, CSS Modules* • [GitHub Repo](#)

- Built a React web application that allows users to track and manage cities they have visited using an interactive map interface

Fast React Pizza • *React, Redux Toolkit, React Router, Tailwind CSS* • [GitHub Repo](#)

- Built a React web application for browsing pizzas, managing a shopping cart, and placing orders using Redux Toolkit and React Router

Medical All-In-One Platform • *Next.js, React.js, Node.js, Express.js, MongoDB, Socket.IO* • [GitHub Repo](#)

- Developed a scalable full-stack healthcare platform for appointment scheduling, shared medical records, and prescription management.
- Enabled multi-doctor collaboration per patient with real-time communication using Socket.IO.

Personal Portfolio Website • *HTML, CSS, JavaScript* • [GitHub Repo](#) • [Live Demo](#)

- Designed and deployed a responsive portfolio website to showcase projects and technical skills

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Python, C/C++, Java, VHDL
- **Frontend & Backend:** React.js, Next.js, Node.js, Express.js, REST APIs
- **Databases & ORM/ODM:** MongoDB (Mongoose ODM), SQL (Sequelize ORM), PostgreSQL (Supabase)
- **AI & ML Technologies:** TensorFlow, Keras, PyTorch, Neural Networks, CNNs, NLP, Computer Vision
- **Embedded Systems:** ESP32, STM32, AVR, RTOS, I2C, SPI, UART, CAN, MQTT, Bluetooth
- **Tools:** Git, OpenCV, TinyML

SOFT SKILLS

Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Attention to Detail, Continuous Learning

COURSES & CERTIFICATIONS

Master Node.js & Deno.js – REST APIs, GraphQL, Authentication

Present

The Ultimate React Course 2025 – React, Next.js, Redux & More

Mar 2026

Deep Learning Specialization – DeepLearning.AI (Andrew Ng)

Jan 2025

Machine Learning Specialization – DeepLearning.AI (Andrew Ng)

Nov 2024

Advanced Embedded Systems (ARM, STM32, RTOS)

Sep 2024

Basic Embedded Systems (AVR)

Sep 2023
